Editing your education-related faculty development activities in Re-AIMS

Log into "RE-AIMS."

- 1. To edit existing courses and notate them as education-related, select the section you want to update. (Teaching and Education-related fields are found in the following sections: Courses Attended, Presentations, Bibliography, Professional Memberships, and Institutional Committee memberships).
- 2. Click on the "Actions" button and "edit" existing education related activities in REAIMS
- 3. Note: The only sections that will show up in your <u>REAIMS Report</u> are the educational activities that are in the following sections: Courses Attended, Presentations, Bibliography, Professional Memberships, and Institutional Committee memberships). If you select "option 1" for your application for the Academy of Educational Excellence, the REAIMS report is what the committee will reference for your education skill development hours (criteria 1).

Change "Teaching/Education Related" field to "yes" if the activity is related to education, input the length of hours this activity was related to and press "save". Doing this to all of your education-related activities will allow for a report to be run within RE-AIMS. **Note: If you do not select yes on each activity, they will not show up when you run your RE-AIMS report.**
