1. Mayo Clinic encourages medical students to complete complimentary degrees such as the MPH, MBA or JD.
   Students take a leave of absence to complete these experiences; therefore, the number of graduates will vary from year to year.
2. MD/PHD students complete both the M.D. and Ph.D. degrees. Time to degree will vary depending on clinical/scientific research.

Note: In programs with small cohorts, retention, graduation, and placement rates can fluctuate noticeably due to the outcomes of just a few students. Interpret these percentages with care and consider multi-year trends for a more accurate assessment.
