Procedure

The Title IX Sexual Misconduct Complaint Resolution Procedure (Procedure) is intended to be flexible so as to allow Mayo Clinic to fulfill its mission and maintain a safe, non-discriminatory learning and working environment. At any and every step of the Procedure, the Title IX Coordinator or a designee has discretion to deviate from the Procedure when deemed appropriate under the circumstances.

This Procedure is the exclusive means of resolving complaints alleging violations of the Title IX Sexual Misconduct Policy. To the extent there are any inconsistencies between this Procedure and other Mayo Clinic grievance, complaint, or discipline policies or procedures, the Title IX Sexual Misconduct Complaint Resolution Procedure will control the resolution of complaints alleging violations of the Title IX Sexual Misconduct Policy.

**Procedural Notes**

Mayo Clinic has designated the following person to coordinate its compliance with laws regarding sexual misconduct, including Title IX/VAWA, and to receive inquiries regarding sexual misconduct, including complaints of sex discrimination:

Title IX Coordinator/Chief Compliance Officer

Kimberly K. Otte
Preservation of Evidence

- If you are the victim of sexual assault or relationship violence, do everything possible to preserve evidence by making certain that the crime scene is not disturbed.
- Preservation of evidence may be necessary for proof of the crime or in obtaining a protection order. As necessary to preserve evidence, victims of sexual violence or relationship violence should not bathe, urinate, douche, brush teeth, or drink liquids until after they are examined and, if necessary, a rape examination is completed. Clothes should not be changed. When necessary, seek immediate medical attention at an area hospital and take a full change of clothing, including shoes, for use after a medical examination.
• It is also important to take steps to preserve evidence in cases of stalking, to the extent such evidence exists. In cases of stalking, evidence is more likely to be in the form of letters, emails, text messages, etc., rather than evidence of physical contact and violence.

Title IX Sexual Misconduct Policy

Definitions

Complaint: an allegation of Sexual Misconduct reported to or filed with Mayo Clinic.

Complainant: the individual who files a report of having experienced sexual misconduct or on whose behalf a report is filed.

Confidential Care and Support Resources: individuals, who by the nature of their work, are required by law to keep information shared with them confidential and who cannot share information revealed to them without the express permission of the individual sharing the information. These individuals are prohibited by law from breaking confidentiality unless there is an imminent threat of harm to self or others or, in some cases, when a report involves suspected abuse of a minor under the age of 18. These campus and community professionals include medical providers, mental health providers, ordained clergy, rape crisis counselors, and attorneys.

Investigator: individual(s) designated by the Title IX Coordinator to investigate a particular complaint (and may include the Title IX Coordinator).

Learner/Student: an individual enrolled in the Mayo Clinic School of Health Sciences (MCSHS), Mayo Clinic Graduate School of Biomedical Science (MCGSBS), Mayo Clinic School of Graduate Medical Education (MCSGME), or Mayo Clinic School of Medicine (MCSOM).

Parties: the complainant and respondent.

Preponderance of Evidence Standard: A standard for determining facts under this policy that asks whether “it is more likely than not” that sexual misconduct occurred.

Relationship Violence (Dating/ Domestic Violence): an umbrella term that collectively refers to prohibited conduct under this policy regardless of the motivation behind the action and includes domestic violence and dating violence.
• **Domestic Violence**: acts of violence committed by a current or former spouse or intimate partner of a victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred, or by any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

• **Dating Violence**: violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship will be determined based on the reporting party’s statement and with consideration of the length of the relationship, the type of the relationship, and the frequency of interaction between the persons involved in the relationship.

**Respondent**: The individual against whom a report has been filed.

**Sexual Assault**: any actual or attempted sexual contact with another person without that person’s consent. As used in this policy, sexual contact includes intentional contact by the accused with the victim’s genital area, groin, inner thigh, buttocks, or breasts, whether clothed or unclothed, or unlawfully coerced touching by the victim of another’s genital area, groin, inner thigh, buttocks, or breasts, whether clothed or unclothed. Sexual assault is a crime under Minnesota, Arizona, Florida, and Wisconsin law. See Minn. Stat. § 609.341 et seq.; A.R.S. § 13-1406 et seq.; Fla. Stat. § 794.005, et seq.; Wis. Stat. § 940.225.

Sexual assault includes, but is not limited to, an offense that meets any of the following definitions:

- **Fondling**: The touching of the private body parts (including the genital area, groin, inner thigh, buttocks, or breast) of another person for the purpose of sexual gratification, without consent.

- **Incest**: Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

- **Rape**: The penetration, no matter how slight, of the vagina or anus with any body part or object, oral penetration by a sex organ of another person, or oral contact with the sex organ of another person, without consent.

- **Statutory rape**: Sexual intercourse with a person who is under the statutory age of consent, as defined by state law.

**Sex Discrimination**: occurs when persons are excluded from participation in, or denied the benefits of, any Mayo Clinic educational program or activity because of their sex. Sex discrimination also includes discrimination on the basis of pregnancy, gender identity, sexual orientation, and failure to conform to stereotypical notions of femininity and masculinity (i.e., gender stereotyping).

**Sexual and Gender-Based Harassment**: unwelcome conduct of a sexual nature and includes sexual advances, requests for sexual favors, and other verbal, physical, visual, or digital conduct of a sexual nature when:

- Submission to such conduct is made or threatened to be made, either explicitly or implicitly, a term or condition of an individual’s employment or education;

- Submission to or rejection of such conduct by an individual is used or threatened to be used as the basis for academic or employment decisions affecting that individual; or

- Such conduct interferes with an individual’s participation in Mayo Clinic programs or activities by creating what a reasonable person would perceive as an intimidating, hostile, or offensive educational environment. A hostile environment exists when unwelcome conduct of a sexual nature is sufficiently serious to deny or limit a person’s ability to participate in or benefit from Mayo Clinic programs and activities.
In determining whether a hostile environment exists, Mayo Clinic will consider the totality of circumstances viewed from the perspective of a reasonable person in the alleged victim’s position, including both objective and subjective factors. Examples of factors Mayo Clinic will consider include the type, frequency, and duration of the conduct, the severity of the conduct, whether the conduct is repeated, the age of the alleged victim, any power differential between the alleged victim and alleged perpetrator, and the number of persons involved.

- Harassment without an overt sexual component can also violate the law and this policy where it is shown that the harassment is directed at an individual because of the individual’s sex, gender, gender identity, or sexual orientation. In determining whether alleged conduct constitutes sexual harassment, Mayo Clinic will look at the totality of the circumstances, such as the nature of the conduct and the context in which the alleged incidents occurred.

- **Examples of Sexual Harassment**
  - Pressure for a dating, romantic, or intimate relationship, or for sexual activity
  - Unwelcome touching, kissing, hugging, rubbing, or massaging
  - Unnecessary references to parts of the body
  - Sexual innuendos, jokes, humor, or gestures
  - Displaying sexual graffiti, pictures, videos, or posters
  - Using sexually explicit profanity
  - Asking about, or telling about, sexual fantasies, sexual preferences, or sexual activities
  - Social media use that violates this policy
  - Leering or staring at someone in a sexual way, such as staring at a person’s breasts or groin
  - Sending sexually explicit emails or text messages
  - Commenting on a person’s dress in a sexual manner
  - Giving unwelcome personal gifts such as flowers, chocolates, or lingerie that suggest the desire for a romantic relationship
  - Commenting on a person’s body, gender, sexual relationships, or sexual activities
  - Harassing a male because he “isn’t manly enough” or a female because she “is too manly”

**Sexual Misconduct**: an umbrella term that collectively refers to prohibited conduct under this policy and includes sexual discrimination, sexual and gender-based harassment, sexual assault, sexual exploitation, relationship violence, stalking, and retaliation.

**Stalking**: a course or pattern of two or more acts of unwelcome and unwanted conduct directed towards a specific person that would cause a reasonable person under the circumstances to feel frightened, threatened, oppressed, or intimidated or to suffer substantial emotional distress. Stalking is prohibited by Minnesota, Florida, Arizona, and Wisconsin law. See Minnesota Statutes Section 609.749; A.R.S. § 13-2923 et seq.; Fla. Stat. § 784.048; Wis. Stat. § 940.32.

- Stalking can include conduct that occurs via electronic communications, including social media (i.e., cyberstalking).
