

Contingency Plan

If extenuating catastrophic circumstances (i.e., mass casualty event, pandemic, natural disaster, etc.) impact Mayo Clinic operations, Mayo Clinic College of Medicine operations, or student access to clinical environments at Mayo Clinic sites, the Radiography Program may utilize the following steps to ensure the safety of program students and faculty. **The Radiography Program will ensure that all graduates meet graduation requirements, including ARRT required competencies and successful completion of all coursework with a “C” or better.**

Clinical modifications with appropriate notification include:

- Assigned clinical site changes
- Assigned clinical schedule (date and time) changes
- Modifications to student participation expectations (i.e., limited involvement with Isolation Patients)
- Extension of clinical course requirements beyond the expected completion date

Didactic modifications with appropriate notification, include:

- Class meeting location changes
- Class meeting schedule (date and time) changes
- Temporary utilization of distance learning tools (i.e., Blackboard Collaborate) for class meetings typically delivered face-to-face
- Extension of course requirements beyond the expected completion date

As a learner at Mayo Clinic, your education is of utmost importance to us. We will do everything in our power to ensure that you graduate on time. However, extenuating catastrophic circumstances may extend the program requirements beyond the expected graduation date.

What you can expect from Program Leadership:

- Timely communication via Mayo Clinic email
- Prioritization of student and faculty safety
- Commitment to student professional development
- Assurance that all program graduates meet graduation requirements
