

Humanities in Medicine

AN UNPARALLELED HEALTH CARE EXPERIENCE

Mayo Clinic Humanities in Medicine supports Mayo Clinic's primary value—the needs of the patient come first—by integrating arts and humanities into the healing environment through clinical care, education and research. Humanities in Medicine upholds the founding principles of Mayo Clinic: to care for the individual needs of every patient with trusted expertise in a hopeful, healing environment, while responding to the rapidly evolving requirements of health care delivery and education. On any given day, patients, staff, learners and visitors engage in creative and impactful activities coordinated by the Centers for Humanities in Medicine at each campus.

- **Cure**
