

# Program Highlights

Mayo Clinic is an exciting place to learn and practice. Here is a snapshot of its environment, which gives you a look at what makes Mayo a world leader in medical education, research and health care.

## Learning Community

- 3 current fellows (one a year)
- More than 2,940 residents, fellows and pre-doctoral students at Mayo Clinic in Rochester, MN
- More than 100 pediatric faculty
- 8 staff members in the Division of Pediatric Gastroenterology and Hepatology; 2 NP's and 1 PA

## Patient Base and Care Environment

- Annually, Mayo Clinic treats more than 50,000 children and adolescents, including some 5,000 hospital patients. In the outpatient clinics, there are almost 200,000 pediatric visits. Our division sees over 4,200 patients annually.
- Approximately 80% of patients are from Minnesota, Iowa, or Wisconsin. Patients travel from every state and 25 countries.
- Average number of procedures done at Mayo Clinic yearly:
  - EGD: 1,275
  - Colonoscopy: 487
  - ERCP: 56
- Mayo Clinic Hospital — Rochester (Saint Marys campus and Methodist campus) and all clinic buildings are within walking distance.

## Fellowship Outcomes

- 2009-2019 American Board of Pediatric Gastroenterology Certification Examination first-time pass rate of 100%.
- Outcomes of gastroenterology fellows one year after training: approximately 90% academics and approximately 10% private practice.

## Scholarship

- Over 150 articles, editorials, and reviews have been published by the Division of Pediatric Gastroenterology and Hepatology faculty.
- One graduate received NIH R01 funding shortly after graduating.
- Two graduates have been Mayo Clinic Scholars. One received R01 funding, while the second received a Mayo Clinic KL2 Mentored Career Development Program.
- Average scholarly activity per fellow: 8 presentations, 5 publications, and 3 abstracts.
- Access to Olmsted County, MN patient database in order to perform population-based studies.

### **Fellowship Highlights**

- One year of dedicated mentored research time in an area of interest to the fellow.
- An annual research retreat allows fellows to meet with the adult Division of Gastroenterology and Hepatology faculty researchers.
- Stipends: *See current stipend levels.*
- Vacation: 15 days a year.
- Trip allowance: 10 days a year for presentations; one attendance-only trip during fellowship; yearly attendance for regional meeting.
- Opportunity for attendance at Mayo Board Review Course on annual basis.

### **Innovations**

- Industry leader for electronic medical record, which includes online X-ray viewing.
- Web-based electronic curriculum for each rotation.
- Up-to-date and extensive array of online journals provided free to trainees.
- Enhanced computer access, including clinical access from home and on mobile devices.
- Consistently updated fellow website with quick navigation to schedules and more.
- Web-based evaluations of faculty, rotations, and residents and students.
- State-of-the-art experiences in the *Multidisciplinary Simulation Center*
- Competency-based training.
- Mayo Fellows Association.
