

RADIATION ONCOLOGY REGIONAL PRACTICE PROVIDERS

You have been scheduled for an appointment with a Radiation Oncologist in Rochester. For your convenience, if radiation therapy is prescribed for you, Mayo Clinic has Regional Practices that may provide you with the same treatment options, in a location that is more convenient for you. If you would like to consider treatment at one of our Regional Practices, please have a discussion with your Rochester Radiation Oncologist during your upcoming appointment to determine if this is an option for you. As noted on the map, we have Radiation Oncology Regional Practices in the following locations in Minnesota - Albert Lea, Mankato and Northfield. In Wisconsin we have practices in Eau Claire and La Crosse. These departments are extensions of the Mayo Clinic Rochester Radiation Oncology operations and are staffed by Mayo Clinic physicians and support staff.
